NET WEIGHT: 50 LB. BAG OR BULK INVOICE

FEEDING DIRECTIONS

Feed complete ration at a rate of 16 -29 lbs per head per day to cattle weighing 800 - 1350 lbs. to provide 248.0 - 449.5 milligrams of *Monensin* per head per day. It is important to provide hay as an addition to their daily intake. Store feed in a cool, dry location free of insects, rodents, and other pests. *Do not feed if mold or infestation occurs*.

CAUTION FOR ALL PRODUCTS CONTAINING MONENSIN: DO NOT allow horses or other equines access to feeds containing Monensin. Ingestion of Monensin by horses has been fatal. Monensin medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average gains may result. If feed refusals fed containing Monensin are fed to other groups of cattle, the concentration of Monensin in the refusals and the amount of the refusals fed should be taken into consideration to prevent Monensin overdosing. A withdrawal time has not been established for pre-ruminating calves. DO NOT use in calves to be processed for veal.

CAUTION: Contains copper DO NOT feed to sheep!
