2818 STARTING LAMB BUFFET
MEDICATED
FOR PREVENTION OF COCCIDIOSIS CAUSED BY E. OVINA, E. CRANDALIS, E. OVINOIDALIS (E. NINAKOHLYAKIMOVAE), E. PARVA, AND E. ITRICATA IN SHEEP MAINTAINED IN CONFINEMENT

ACTIVE DRUG INGREDIENT
Lasalosid ........................................................................................................... 30.0 g/ton

GUARANTEED ANALYSIS
Crude Protein .................................................................................................................. Min. 18.0%
(This includes not more than 1.7% equivalent crude protein from Non-Protein Nitrogen)
Crude Fat ........................................................................................................................ Min. 4.0%
Crude Fiber ....................................................................................................................... Max.
 18.0%
Calcium ............................................................................................................................... Min. 1.0%  Max. 1.5%
Phosphorus .......................................................................................................................... Min. 0.35%
Salt ........................................................................................................................................ Min. 0.8%  Max. 1.3%
Sodium ................................................................................................................................. Min. 0.31%  Max. 0.82%
Selenium ............................................................................................................................... Min. 0.30 ppm

INGREDIENTS
Grain Products, Plant Protein Products, Processed Grain Byproducts, Roughage Products, Corn Starch, Calcium Carbonate, Salt, Ammonium Chloride, Potassium Sulfate, Magnesium Sulfate, Magnesium-Mica, Magnesium Oxide, Yucca Schidigera Extract, Betaine (Hydrochloride), Cobalt Carbonate, Lactic Acid, Fenugreek Extract, Potassium Chloride, Vitamin E Supplement, Vitamin D-3 Supplement, Zinc Sulfate, Thiamine Mononitrate, Chicory Root, Red Pepper, Anise Oil, Cloves, Saccharin Sodium, Hemicellulose Extract, Origanum Oil, Lemongrass Oil, DL-Tocopherol-Acetate, Sodium Selenite, Cholecaciferol (D-activated Animal Sterol), Ethylenediamine Dihydriodide, Ethoxyquin (A Preservative), Natural Flavor, Molasses, Soybean Oil, Propionic Acid, Sodium Calcium Aluminosilicate, Silicon Dioxide, Mineral Oil.

NET WEIGHT: 50 LB BAG OR BULK INVOICE
FEEDING DIRECTIONS
Feed continuously to lambs prior to weaning, continuing up to 3 weeks after final weaning date at a rate of 1.0 – 4.67 lbs per head per day, to provide not less than 15 mg and not more than 70 mg of lasalocid per head per day depending on body weight. Be sure to provide continuous access to clean, cool water. Store feed in a cool, dry location, free of insects, rodents, and other pests. *Do not feed if mold or infestation occurs.*

**Caution:** Do not allow horses or other equines access to premixes or supplements containing lasalocid, as ingestion may be fatal. The safety of lasalocid in unapproved species has not been established. Feeding undiluted or mixing errors resulting in excessive concentrations of lasalocid could be fatal to cattle and sheep.

**Caution:** Follow label directions. The addition to feed of higher levels of this product containing selenium is not permitted. The feeding of this product should not exceed the recommended feeding levels.
