2828 LACTATING BUFFET
MEDICATED
FOR PREVENTION OF COCCIDIOUSIS CAUSED BY E. OVINIA, E. CRANDALLIS, E. OVINOIDALIS (E. NINAKOHLYAKIMOVAE), E. PARVA, AND E. ITRICATA IN SHEEP MAINTAINED IN CONFINEMENT

ACTIVE DRUG INGREDIENT
Lasalosid ................................................................. 30.0 g/ton

GUARANTEED ANALYSIS
Crude Protein ............................................................... Min. 18.0%
Crude Fat ........................................................................ Min. 4.5%
Crude Fiber ....................................................................... Max. 20.0%
Calcium ............................................................................. Min. 1.0% Max. 1.5%
Phosphorus ........................................................................ Min. 0.35%
Salt ................................................................................ Min. 0.9% Max. 1.4%
Sodium ............................................................................... Min. 0.31% Max. 0.81%
Selenium ................................................................. Min. 0.30 ppm

INGREDIENTS
Grain Products, Plant Protein Products, Processed Grain Byproducts, Roughage Products, Molasses, Soybean Oil, Calcium Carbonate, Salt, Corn Starch, Potassium Sulfate, Magnesium Sulfate, Magnesium-Mica, Magnesium Oxide, Molybdenum, Yucca Schidigera Extract, Betaine (Hydrochloride), Cobalt Carbonate, Lactic Acid, Fenugreek Extract, Potassium Chloride, Vitamin E Supplement, Vitamin D-3 Supplement, Zinc Sulfate, Thiamine Mononitrate, Chicory Root, Red Pepper, Anise Oil, Cloves, Saccharin Sodium, Hemicellulose Extract, Origanum Oil, Lemongrass Oil, DL Tocopherol-Acetate, Sodium Selenite, Cholecalciferol (D-activated Animal Sterol), Ethyldiamine Dihydrdiodide, Ethoxyquin (A Preservative), Natural Flavor, Propionic Acid, Sodium Calcium Aluminosilicate, Silicon Dioxide, Mineral Oil.

MEISS FEED AND SUPPLY
245 S. STATE ROUTE 47, SIBLEY, IL 61773
217-745-2302

NET WEIGHT: 50 LB BAG OR BULK INVOICE
FEEDING DIRECTIONS

Feed continuously to ewes up to 3 weeks prior to lambing, and ewes with nursing lambs at a rate of 1.00 - 4.67 lbs per head per day, to provide not less than 15 mg and not more than 70 mg of lasalocid per head per day depending on body weight. Be sure to provide continuous access to clean, cool water. Store feed in a cool, dry location, free of insects, rodents, and other pests. *Do not feed if mold or infestation occurs.*

Caution: Do not allow horses or other equines access to premixes or supplements containing lasalosid, as ingestion may be fatal. The safety of lasalosid in unapproved species has not been established. Feeding undiluted or mixing errors resulting in excessive concentrations of lasalosid could be fatal to cattle and sheep.

*Caution: Follow label directions. The addition to feed of higher levels of this product containing selenium is not permitted. The feeding of this product should not exceed the recommended feeding levels.*
